Title: Anti-Theft Dots Program Partnership– Connecting the DNA dots in Yolo County

Law Enforcement in Yolo County is teaming up to combat property theft! The Anti-theft Dots Program has developed an innovative technology to combat theft. Anti-Theft Dots products have special adhesives that adhere to all types of surfaces. The adhesive contains DNA micro dots embedded throughout the product that can be registered to an individual. A registry of these items has been created for law enforcement, which can be searched to help first responders identify recovered items.

This new technology is being offered by law enforcement agencies across Yolo County – Woodland PD, Davis PD, Winters PD, and the Yolo County Sheriff Office encourage residents to protect their property by applying this new technology to your valuables as a means to deter theft and a method to return recovered property to the rightful owners.

The Winters Police Department is proud to participate in the partnership with Antitheftdots.com. Anti-Theft Dots Products will be available at the following locations in Winters:

Pacific Ace Hardware 35 Main St, Winters, CA 95694

Velo City- 41 Main St, Winters, CA 95694

Online at: <http://antitheftdots.com/Product/ProductListing.aspx>

To learn more about the technology or register your DNA microdots, please visit the Anti-Theft Dots web page at <http://antitheftdots.com/Default.aspx> or visit the Anti-Theft Dots Facebook at <https://www.facebook.com/pages/Anti-Theft-Dots/620356274750288?fref=nf> – like the page and you will be entered in a drawing to receive a free kit from Anti-Theft Dots.

If you have questions about the Anti-Theft Dots Program Partnership, please contact the Winters Police Department at (530) 794-6725 or by emailing questions to: tips.winters@winterspolice.org.
